2021 VOLKSWAGEN ATLAS SEL Vehicle Description

Discover the 2021 Volkswagen Atlas SEL, a versatile used SUV designed to meet your family and lifestyle needs. With a sleek silver exterior and a spacious interior that comfortably seats seven, this vehicle combines style and practicality. Powered by a 3.6-liter V6 engine producing 276 horsepower and 266 lb-ft of torque, it delivers confident performance while maintaining an average of 17 mpg in the city and 23 mpg on the highway. Weighing just over 0.3703, it offers a smooth ride with front-wheel drive and an automatic transmission. This Atlas SEL comes well-equipped with advanced features such as adaptive cruise control, a backup camera, blind spot monitor, Bluetooth connectivity, collision warning, cross traffic alert, and a hands-free liftgate. Heated seats, memory seats, a sunroof, navigation system, push start, rear A/C, satellite radio readiness, wireless phone charging, and a Wi-Fi hotspot enhance comfort and convenience. Its 29,055 miles reflect careful use, making it an appealing option for those seeking a reliable used SUV with modern amenities. This 2021 Volkswagen Atlas SEL is loaded with safety and security features that prioritize driver and passenger protection. It includes automatic emergency braking at the rear, traffic sign recognition, front and rear parking sensors, four-wheel anti-lock braking system, anti-lockout power door locks, auto-locking door locks, and an electronic parking brake with auto off. These systems work together to ensure a secure driving experience, giving you peace of mind on every journey. On the entertainment and technology front, the Atlas SEL offers a suite of features designed to keep you connected and entertained. It is compatible with the Car-Net app and Amazon Alexa, allowing seamless smartphone integration. Hands-free voice-operated phone calls and radio enhance ease of use, supported by HD radio and an 8-inch touch screen display. The infotainment system provides real-time traffic data and access to in-car apps through marketplace integration, ensuring you're always connected. The engine start and cabin preconditioning can be controlled remotely via smart device apps, making every drive more convenient and enjoyable. Performance is further enhanced by auto start/stop technology, which helps improve fuel efficiency and reduce emissions during city driving. This feature allows the vehicle to automatically shut off at stops and restart smoothly when needed, contributing to a more economical and eco-friendly ride.
